Student

## Internship Experience

### V VISIONS / online internship

In V Vision Company

I gained practical experience in specific area, like software development, accessibility solutions .During the internship, I worked on key tasks, such as developing applications, conducting, testing software, and improving accessibility features. This experience allowed me to enhance my relevant skills, such as coding, problem-solving, teamwork while contributing to innovative projects aimed at specific goals like improving communication for deaf and mute individuals.

### CYBER SECURITY / offline internship

In Cyber Security

I gained hands on experience focusing on key areas such as network security, penetrative testing, threat analysis and incident response, ethical hacking, data protection and encryption .This internship enhanced my technical skills , problem- solving abilities, and understanding real world cyber security challenges preparing me for future roles in this particular field.
